

2024 NOVEMBER COW SALE

Saturday, November 9, 2024 • 12:00 noon edt

Sale Order & Update Sheet

Cattle will come into the ring in groups or singles according to the sale sheet. Buyer has choice to take how many they want from the pen or can sweep the ring. These are the updates to the best of our knowledge but all announcements made from the sale block will take precedence over printed material.

Piney Woods Farm • Red Angus and Angus-based cows. Calves at side are sired by Charolais and Red Angus bulls and are 3-8 weeks old. Cows have not been exposed back to any bulls and are ready to breed to the bull of your choice. They have been kept up to date on a pre-breeding modified live vaccination and deworming program, are on a chelated mineral program, and have just been on grass and hay. Piney Woods Farm is a GAP-4 and Verified Natural certified farm that manages their herd to meet all of these requirements.

Terrell Double TT Farms • This dispersal from the Terrell herd features all Red Angus based cows. Most are sired by Red Angus bulls and are high percentage Red Angus. About 15 head are Red Angus-x-Tarentaise also bred to Red Angus bulls. The Terrells have been using Red Angus bulls for many years and have always kept their own heifers back so they have a very consistent herd. Cows are bred to Red Angus bulls from Red Hill Farm and Rogers Cattle Co and due to calve January-April 2025, bulls were only left in for 90 days. Cows weaned off calves in September & October and have just been on grass and mineral. All these cows were born and raised here on the farm.

The following pens will come into the ring in GROUPS. Buyer has the option to pick their choice or sweep the ring.

Bred & Open Cows

Terrell Double TT Farms

The following cows will come into the ring ONE AT A TIME. We will provide a weight on the cows and open cows will sell by the pound and then for one money. Cows may not come into the ring in this exact order but the block will announce the tag number as the animal comes in the ring.

Open Cows: The bulls were in with the cows for just 90 days and then pulled. All of the cows were palpated by our vet and anything that was determined to be a non-breeder was noted. Due to this being a dispersal, the cows are not guaranteed breeders but to the best of our knowledge will breed.
